# PARKS, RECREATION AND OPEN SPACE MASTER PLAN 2020-2030

June 23, 2020

**RESOLUTION NO. 2020-17**

**RESOLUTION OF THE CITY OF HARKER HEIGHTS, TEXAS, ADOPTING  
THE 10-YEAR PARKS, OPEN SPACE, AND TRAILS MASTER PLAN UPDATE**

**WHEREAS**, the City advertised for Requests for Qualifications for Parks Master Plan services on February 23 and March 3, 2019; and

**WHEREAS**, on May 14, 2019, the City Council of the City of Harker Heights authorized the City Manager to enter a contract with Luck Design Team to provide the City with a Parks, Open Space, and Trails Master plan; and

**WHEREAS**, City of Harker Heights Parks and Recreation Staff and Luck Design Team met regularly in 2019 and 2020 to obtain public input and to examine research and data regarding the City's existing park and trail system, its environmental resources, and its anticipated needs for future parks, recreation, trails, and open space in order to update the 10-Year Parks, Open Space, and Trails Master Plan; and

**WHEREAS**, Luck Design Team identified and evaluated the parks, recreation, trails, and open space opportunities; established goals and objectives for updating the citywide system of parks, trails, and open space; and made recommendations on park, recreation, trail, and open space opportunity sites for acquisition and development in order to update this citywide system; and

**WHEREAS**, City Council reviewed the 10-Year Parks, Open Space, and Trails Master Plan update at their June 16, 2020 Council Workshop with Parks and Recreation Staff and Luck Design Team and provided input on the final document.

**THEREFORE, BE IT RESOLVED** by the City Council of the City of Harker Heights, Texas that the 10-Year Parks, Open Space, and Trails Master Plan update, attached hereto and incorporated herein as Attachment 2 is hereby adopted as the City of Harker Heights Parks and Recreation Department's 10-Year Parks, Open Space, and Trails Master Plan.

**PASSED AND APPROVED** on this 23<sup>rd</sup> day of June, 2020, by a vote of 4 ayes and 0 nays at a regular meeting of the City Council of the City of Harker Heights, Texas at which meeting a quorum was present, held in accordance with the provisions of Texas Government Code, Chapter 551.

# ACKNOWLEDGEMENTS

The City of Harker Heights, Texas and Luck Design Team, LLC collaborated to prepare the City of Harker Heights Parks, Recreation and Open Space Master Plan 2020-2030. The plan was developed between August 2019 and February 2020, with input from many individuals and groups through the needs assessment survey, public meetings and communication with City personnel and leadership. The following individuals are recognized for their significant contributions to the development of the plan.

## THE CITY COUNCIL OF HARKER HEIGHTS:

Spencer H. Smith , Mayor

Jennifer McCann, Place 1 Council Member

Michael Blomquist, Mayor Pro-Tem, Place 2 Council Member

Jackeline Soriano Fountain, Place 3 Council Member

John Reider, Place 4 Council Member

Jody Nicholas, Place 5 Council Member

## THE HARKER HEIGHTS: PARKS AND RECREATION ADVISORY BOARD:

Natalie R. Austin, Board Member

Heidi Heckel, Board Member

Eva Keagle, Board Member

Patrick W. Kerr, Board Member

Jack Palmer, Board Member

Angie Wilson, Board Member

Brittany Harris, Alternate

Alonzo Williams, Alternate

## CITY STAFF:

David Mitchell, City Manager

Jeff Achee, Director of Parks and Recreation

Nicole Loayza, Administrative Assistant

## 2

# EXECUTIVE SUMMARY

## INTRODUCTION

Harker Heights is located in Bell County just off of U.S. Highway 190 approximately 15 miles west of Interstate 35. The cities of Killeen and Nolanville border the city; however, Fort Hood is just a few miles away. The City of Harker Heights is located 60 miles north of Austin, 150 miles northeast of San Antonio, 190 miles northwest of Houston, 65 miles southwest of Waco, and 162 miles southwest of Dallas/Ft. Worth.<sup>1</sup>

The City, with an existing population in excess of 31,000 and 181 acres of parkland, contracted with Luck Design Team to guide the City in the development of a 10-year growth plan for the City's park system. Luck Design Team, City Staff, together with the Harker Heights Parks Advisory Board produced a document the City Council could support and use as a tool in planning future park growth. The plan focuses on the entire parks system, establishing benchmarks documenting where the City is currently and outlining priorities for its future growth.

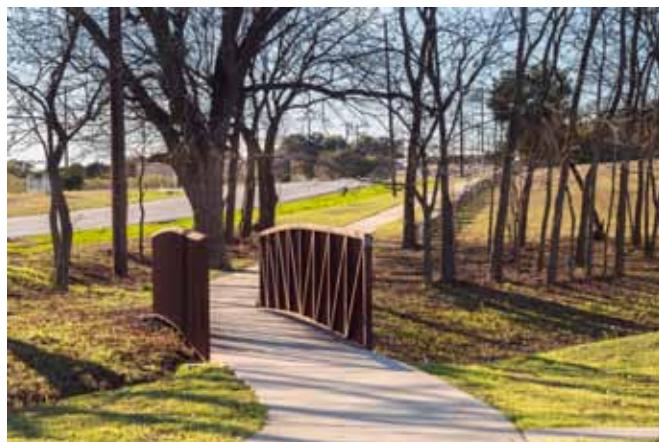

## EXISTING FACILITIES INVENTORY

The first step of the planning process was a comprehensive inventory of the existing recreational facilities in the community's parks system. Parkland in the City can be categorized in two distinct groups:

Neighborhood Parks are smaller than community parks, usually under 5 acres in size. They are primarily used by residents in the immediate walking area and require very little on-site parking. The goal of a neighborhood park is to provide a gathering place for nearby neighborhoods to utilize, take pride in, and help with enhancement and maintenance. Harker Heights has three neighborhood parks.

Community Parks are the largest parks, serving traditional family groups and alternate-use groups from the city and the outlying area populations. They have a wide variety of park facilities for recreation and competitive sports use that attract patrons during all seasons. Off-street parking is provided so

that residents may drive from greater distances to utilize the park facilities. Community parks represent significant construction and maintenance investments by the taxpayers of a city. Harker Heights has four community parks, excluding the Community Gardens that are an extension of Carl Levin Park.

The City of Harker Heights owns and maintains 178 acres of parkland. The parks system includes approximately 24 acres of neighborhood parks and 154 acres of community parks.

## PUBLIC INPUT

A series of public forums were conducted to gather public input and an online survey was distributed to gather feedback in determining if the community's park needs are being met.

These meetings were held at the following dates and locations:

- |                      |  |
|----------------------|--|
| • September 16, 2019 | Skipcha Elementary (located south of Interstate 14)        |
| • September 18, 2019 | Harker Heights Elementary (located north of Interstate 14) |
| • November 14, 2019  | Harker Heights City Hall                                   |

A community parks needs assessment survey was available online from September 2019 thru January 2020 and distributed to attendees of the public meetings to receive input from the residents and property owners in Harker Heights. 357 responses to twenty-one park related questions were completed. See "Section 0 - Appendix" for the survey that was distributed.

## PARKS GOALS

Through the public meetings, survey responses, input from the Parks Advisory Board and discussions with City Staff, four broad goals were identified for the City's park system:

- **Accessibility:** Provide parks that are available for all abilities and accommodates both vehicular and non-vehicular connectivity to those parks and recreation opportunities;
- **Sustainability:** Develop and enhance parks and recreational programs within the City that promote environmental awareness and place environmental education and stewardship as a leading tenet for patrons of the City's park system;
- **Maintenance:** Take care of the excellent park infrastructure that the City has and ensure that future park improvements are developed with best practices of maintenance in mind;
- **Innovation:** Bring energy and vitality to recreational facilities in the City's park system by providing unique park experiences.

## KEY NEEDS/PRIORITIES FOR MASTER PLAN RECOMMENDATIONS

The prioritization of the improvements is based on community input, the needs assessment and direction from the Harker Heights Parks Advisory Board. Some recommendations will be accomplished within the life of this master plan, which is effective until the year 2030. Other recommendations have a completion date ranging beyond the ten year horizon of this plan. The three priority categories are as follows:

- High Priority – to be completed within 5 years
- Medium Priority – to be completed between 5 and 10 years
- Moderate Priority – these items might be initiated during the life of the master plan, but they may not be completed within 10 years. Additionally, several of these priority items are currently meeting the needs of the community (for example, soccer, baseball and softball) but there is an express desire and need for the continued upkeep and maintenance of these facilities that the City has already invested in.

The City's park priorities are divided into "Outdoor Recreation Priorities" and "Indoor Recreation Priorities" as shown:

#### OUTDOOR RECREATION PRIORITIES

##### High Priority Items

1. Walking, Hiking & Biking Trails/Paths/Lanes
2. Picnic Tables (Trail Support Amenity)
3. Benches (Trail Support Amenity)
4. Water Playscape / Splash Pads

##### Medium Priority Items

5. Playscapes / Playgrounds
6. Dog Park
7. Outdoor Swimming Pool
8. Wildlife Viewing Areas/ Natural Area and Open Space

##### Moderate Priority Items (Long-Range Priority Items)

9. Soccer Fields
10. Tennis Court
11. Skate Park
12. Baseball Fields
13. Fishing /Water Access Opportunities
14. Basketball
15. Softball

#### INDOOR RECREATION PRIORITIES

##### Medium Priority Items

1. Indoor Pool
2. Senior Center

##### Moderate Priority Items (Long-Range)

3. Multipurpose Indoor Recreation Center

## IMPLEMENTATION PLAN

The Implementation Plan focuses on "Facility Improvements", with a specific emphasis on outdoor improvements. The implementation plan focuses on the highest outdoor priority facilities. Parkland Acquisition was not deemed a major priority at this time.

## FUNDING FOR PARK FACILITIES

Funding for the recommended parks system projects will come primarily from local sources, including:

- General fund expenditure

- Bond funds, if required and appropriate
- User generated revenues
- Cash and equipment donations
- Land donations
- Funding assistance from other area public entities

The City should seek grant funding from state and federal government agencies, educational districts, and from private foundations to supplement local funds. Some grants that could help to further develop the parks and recreation system include:

- TRPA Grants – The Texas Recreation and Parks Account (TRPA) is administered and distributed by the Texas Parks & Wildlife Department (TPWD). The TRPA has been the primary source of parks and recreation grant funding in Texas over the past 10 years.
- Transportation Enhancement Grants – The funds are administered by the Texas Department of Transportation (TxDOT), with an emphasis on the need for safer, more efficient management of integrated, multi modal transportation systems.
- Safe Routes to School Grants – This grant is also administered by TxDOT, with the overall purpose to improve safety in and around school areas. Bicycle and pedestrian corridors would be eligible for this type of grant funding.

## CONCLUSION

Several overriding themes dominated both input received from the public and the development of this plan. Multiple references were made to "Take care of what we have" in regards to the City's Park system. There was an overall high level of satisfaction in the current level of park acreage and development that exists within the park although there was also communication from residents who asked for more parkland to be added to the parks system.

At the time of this writing, the City of Harker Heights is exploring the feasibility of taking over the Maintenance and Operations of Dana Peak Park from the Corps of Engineers as part of a potential lease

agreement. While Dana Peak Park will not be listed as part of the official Harker Heights park amenity and acreage inventory, the open space and recreational amenities will directly service Harker Heights residents. Therefore, only a modest increase of 20 acres in City parkland is proposed over the next 10 year growth cycle for the parks department.

Market and communicate the wide variety of recreational opportunities available to residents. Many residents simply do not know what is available to them currently for outdoor recreation within the City.

A focus on providing activities and social places for the City's teen and the adolescent population is stressed through the goal of providing "Innovation" in the City's parks and providing "Instagram-able" moments.

Connectivity through trails is by far the number one priority for the City's future park system. The definition of trails as the number one priority encompasses trails, paths and lanes accommodating walkers, runners, bikers and the potential of micromobility devices such as electric scooters, docked and dockless shared bikes, etc. The development of trails on site at parks and off site as part of a thoroughfare plan is a community vision exhorted to be shared by the City's Public Works Department and the Texas Department of Transportation as future street improvements are undertaken.

There is an expressed interest to develop trail connectivity with the vision of having parks within a ten minute walk of homes: to connect homes to parks; parks to parks; connect to other cultural amenities within the City. Inherent to this goal is connecting to the trail systems of surrounding cities and providing trail support amenities along trails (such as benches and picnic tables) as a key element to the success of that trail connectivity.

# 3

# METHODOLOGY

The Harker Heights Parks, Recreation and Open Space Master Plan 2020-2030 follows the general guidelines for local park master plans, as published in Appendix G: Master Plan Guidelines of the Texas Parks and Wildlife Department's Outdoor Recreation Grant Application. Development of the plan was carried out in seven chronological steps:

## 1. INVENTORY

The inventory assessed the condition of parks system facilities that provide recreational opportunities for Harker Heights residents, and identified needed improvements for each location. Additionally, the inventory assessed recreational areas and opportunities provided by other public entities in the city limits. Beginning in the late summer of 2019, City Staff and members of LUCK Design Team went to each park, photographically documenting the facilities, writing

a detailed list of features, and charting each feature on a map of the park. The data was compiled into a table listing each City-owned park with a count of each feature or amenity in that park.

## 2. PUBLIC INPUT

Working with a LUCK Design Team, the City formulated a process for public input to gather ideas for the master plan. The elements for public input involved community meetings, an opinion survey from park users, and discussions with City Staff.

In September 2019, the Harker Heights Parks Advisory Board, along with City Staff, hosted two community meetings, at Skipcha Elementary and Harker Heights Elementary respectively. The meetings were advertised through newspaper advertisements and articles. Through a slide presentation, attendees learned about Harker Heights' existing park system and had an opportunity to ask questions and comment about facilities and programs. At the close of each meeting attendees had the opportunity to take the Harker Heights Parks and Recreation Survey. An electronic version of the survey was also available through the City of Harker Heights web site.

A third meeting was held on November 14, 2019 at City Hall to present and discuss developed park priorities.

### **3. GOALS & OBJECTIVES**

Analysis of the collected data and information resulted in a list of priorities that fit into one of four broad categories or Park System Goals. These were then defined into specific objectives or “tracts” within the Implementation Plan.

### **4. FACILITY NEEDS**

Facility needs were assessed using standard and resource based methods utilizing information from the public input process.

### **5. RECOMMENDATIONS**

Recommendations were formulated for the park system's future growth, based on public input and discussions with City Staff,. The recommendations focus primarily on facilities Improvements.

### **6. IMPLEMENTATION PLAN**

In March of 2020, the Harker Heights Parks Advisory Board formulated a recommendation for the Harker Heights City Council regarding a prioritized future parks plan. The implementation plan describes potential project priorities, the goals of the plan each recreational priority project satisfies, potential funding sources and estimated budget expenditures. The Parks Advisory Board received and accepted the plan at their March 2020 meeting.

### **7. ADOPTION**

The City of Harker Heights Parks, Recreation and Open Space Master Plan 2020-2030 was adopted by the Harker Heights Parks and Recreation Advisory Board through e-mail approval in April 2020 and presented to City Council.

The plan is effective May 2020 through the end of 2030. Comprehensive updates to the plan are recommended to be made every five years.

# 4

# INTRODUCTION

## A HISTORY OF HARKER HEIGHTS

"The land on which the current City of Harker Heights is located drew inhabitants long before the City was incorporated. Native Americans were prevalent in the area long before the first settlers arrived here. No doubt the Native Americans were drawn to the area because of its' natural beauty, just as those who come today. The influence of the Native Americans is seen in street names today, such as Comanche Gap Road. Comanche Gap Road is named for the natural "gap" in the hills that the Native Americans utilized in their travels. This "gap" in the hills was utilized by Native Americans as late as 1870. Indian campsites in the area have been dated to as far back as 200 years. Later in history, cattle drives were said to have commonly come through the City along portions of what is our current FM 2410.

The land comprising the original City of Harker Heights was utilized in the 1940's for its agricultural benefits. However, the original owners of the property, Pinckney R. Cox and Harley Kern, envisioned a town evolving from where their agricultural interests then stood. In 1955, the creation of the Water Control and Improvement District #4 set the stage for water improvements to the 400 acres Cox and Kern owned. The roots of the new city grew further when in 1957 Cox began subdividing the lands and selling lots. Mr. Kern became ill in 1957 and was unable to participate in the subdividing and died later that year. Individuals who purchased lots wanted a water system. Pinckney R. Cox took leadership in getting a water system established for the residents. The water system was in place by 1960. Sometime before the completion of the water system, residents of the area filed a petition for an incorporation election. On September 24, 1960, voters approved the incorporation and the Town of Harker Heights was born. The town took part of its name from one of its' two founders, Harley Kern. In October of 1963, Harker Heights officially designated its' name as a city.

The City has been influenced significantly by Fort Hood, a military base that began as Camp Hood back in 1942. In 1951 the Camp received Fort status.

The city at its inception was approximately 950 acres in size. Through various annexations, the city grew from 945 acres to its current size of 9,064 acres. Due to annexations and growth, population increased from a projected 600 in 1960 to today's estimate of over 26,000 residents."<sup>1</sup>

## CLIMATE

The annual "Average High Temperature" for the City of Harker heights is 96.8 degrees. The "Average Low" is 35.5 degrees.

Annual Rainfall for the City is 34.3 inches.

## SCHOOLS

Harker Heights is included in the Killeen Independent School District. Located within the boundaries of Harker Heights are three elementary schools, two middle schools and one high school.<sup>1</sup>

Several area colleges and universities serve the people of Harker Heights, including:

- Central Texas College – Killeen;
- Texas A&M University – Central Texas;
- University of Mary Hardin-Baylor – Belton;
- Temple Junior College – Temple;
- University of Texas – Austin.

## DEMOGRAPHICS

By using demographic information as a tool for future parks system planning, the City is able to identify opportunities and provide enhancements that attract and provide essential services to previously excluded or under served populations and facilities.

The population projections used in this document are based on existing census data and current building permits.

The current 2019 population estimate is 31,849. The projected full population build out for the City of Harker Heights is anticipated to be between 40,000 and 50,000 people.

For planning purposes the population estimate for 2025 is extrapolated to be 34,287 and for 36,725 in 2030 based on "Active Residential Water Accounts Forecast" as developed by the City of Harker Heights Planning and Development Department.

## CITY OF HARKER HEIGHTS PARKS AND RECREATION GOALS

The goals of the City of Harker Height Parks, Recreation and Open Space Master Plan 2020-2030 were developed by the Harker Heights Parks Advisory Board as a result of the communication received from the public meetings and discussions with City Staff. They guide the vision of the Parks, Recreation and Open Space Master Plan 2020-2030. These goals are:

The goals include:

- **Accessibility:** Provide parks that are available for all abilities and accommodates both vehicular and non-vehicular connectivity to those parks and recreation opportunities;
- **Sustainability:** Develop and enhance parks and recreational programs within the City that promote environmental awareness and place environmental education and stewardship as a leading tenet for patrons of the City's park system;

- Maintenance: Take care of the excellent park infrastructure that the City has and ensure that future park improvements are developed with best practices of maintenance in mind;
- Innovation: Bring energy and vitality to recreational facilities in the City's park system by providing unique park experiences.

In order to implement the four goals of the parks master plan, specific objectives were identified as action items. These action items are further expanded upon in "Section 8 - Implementation Plan".

# 5

# INVENTORY

In order to project the future park and recreation needs of the City of Harker Heights, City Staff conducted a parks/facilities inventory review of the fifteen parks/facilities within the City's park system. Each of the parks were inventoried for the number and type of park amenities located at the park, documented with photographs as the parks looked in the summer/fall of 2019, and categorized according to the following parks classification system:

## NEIGHBORHOOD PARK

Neighborhood parks provide the foundation for recreation under the parks system. They are average sized parks, usually under 5 acres. Neighborhood parks provide recreational opportunities for the entire family and are primarily used by residents within immediate walking or biking distance. There are five neighborhood parks in Harker Heights.

Neighborhood parks are places where neighbors gather, take pride in, and help with enhancement and maintenance. A neighborhood park in Harker Heights should serve approximately 2,000 to 3,000 residents. Neighborhood parks can represent significant construction and maintenance investments, primarily because of the multiple sites throughout the community. In some instances, depending on location and facilities, community parks supplement the need for neighborhood park type service for residential areas within walking or biking distance.

**Size** – The average neighborhood park in Harker Heights should be 5 or less acres. However, the size of a particular park may vary greatly depending on the surrounding property and types of uses in the park itself. The park should be small enough not to encroach on the neighborhood by attracting too many visitors, but large enough to provide a variety of facilities. The layout of a neighborhood park should be very efficient, as room for expansion will be limited and any future development will have to take place within existing park boundaries.

**Location** – Neighborhood parks are located throughout the City and are accessible to residents living within a one-half mile radius. These parks are frequently located adjacent to elementary schools, so as to share acquisition and development costs with the school district.

Typical facilities that can be found in neighborhood parks include:

- Playground equipment with a safety surface
- Unlighted practice fields
- Unlighted tennis or basketball courts
- Unlighted multi-purpose courts

- Jogging exercise trail with exercise stations
- Active free play areas
- Picnic areas with benches, picnic tables and grills
- Small pavilion or gazebo
- Limited security lighting
- Nature education stations
- Neighborhood gardens

**Parking** – This varies on the facilities and size of the park, but the National Recreation and Park Association recommends a minimum of eight spaces per newly developed neighborhood park with at least two handicapped accessible spaces. Off-street parking is not recommended in most cases because the park should primarily serve those residents within walking or biking distance.

## COMMUNITY PARK

- Community parks are the largest parks, serving family and alternate-use groups from the city and outlying area populations. They have a wide variety of park facilities for recreational and competitive sports use that attract patrons during all seasons. The majority of access to this type of facility is by driving to the park and parking on-site, enabling residents to come from greater distances to utilize the park facilities. Community parks represent significant construction and maintenance investments from the taxpayers. Harker Heights has five community parks.
- Size – Average park size ranges from 15 acres to more than 50 acres. Community parks should be large enough to provide a variety of facilities while still leaving open space for passive recreation and pre-existing natural areas. Ideal community park sites will have room for expansion and growth as new facilities are required.

• Location – Parks should be located near a major thoroughfare to provide easy access and identification from different parts of the city and for those visitors and tourists coming from out of town. Because of the potential disruption caused by noise and intense illumination during the night hours, community parks should be buffered from adjacent residential areas.

Typical facilities that can typically be found in community parks include:

- Indoor recreation or community centers
- Lighted ball fields, suitable for organized competitive events
- Hiking and/or bicycling trails
- Playground equipment
- Sufficient off-street parking based on facilities provided and size of park
- Active free play areas
- Picnic areas and pavilion(s)

- Restrooms
- Security lighting
- Nature trails
- Fishing ponds
- Swimming pools
- Skate parks

Parking – This varies on the facilities and size of the park. The National Recreation and Park Association recommends a minimum of five spaces per acre, plus additional parking for any future facilities.

HARKER HEIGHTS PARKS SYSTEM - Existing Community Parks- 2 Mile Service Radius

City of Harker Heights

LUCK DESIGN TEAM

In addition to the City-owned park facility inventory, non-City-owned recreational amenities located within the City limits were also documented. They are outlined below.

## NON-CITY OWNED PUBLIC RECREATIONAL AMENITIES WITHIN THE CITY LIMITS

### ELEMENTARY SCHOOLS:

Harker Heights Elementary School                    726 South Ann Boulevard

Recreational Amenities: Playgrounds, Four Square Courts, 2 Basketball Standards

Mountain View Elementary School                    500 Mountain Lion Road

Recreational Amenities: Basketball Courts, Multi-Use Fields, Playgrounds, Mini-Track

Skipcha Elementary                                    515 Prospector Trail

Recreational Amenities: Basketball Courts, Multi-Use Fields, Playgrounds, Picnic Tables, Benches

### MIDDLE SCHOOLS:

Eastern Hills Middle School                        300 Indian Trail

Recreational Amenities: Football Field (Game); Multi-Use Field; 2 long jump pits

Union Grove Middle School                        101 East Iowa Drive

Recreational Amenities: Football Field (Game), 2 Multi-Use Fields, 4 Tennis Courts, long jump pit, shot put

### HIGH SCHOOLS:

Harker Heights High School                        1001 Farm to Market 2410

Recreational Amenities: Football Field (Game); 8-Lane Track; 60 yard Football Field (Turf), 2 Football Field (Practice / Grass); Baseball Field (Game); Softball Field; 2 Soccer Fields; 8 Tennis Courts; 2 basketball courts

All three elementary schools have perimeter fencing around the recreational amenities on site but the facilities are largely open to the public for after school hours use. From conversations with KISD personnel, it is believed this "open access" policy will continue into the future.

However, the recreational and athletic facilities at the two middle schools and Harker Heights High School are for "student use" only and as such provide no recreational use for the general public.

The Armed Services YMCA provides indoor recreational facilities at 110 Mountain Lion Road and another YMCA facility in the northern part of the City off South Ann Boulevard offers an outdoor pool and splash pad. All YMCA amenities are maintained and operated independently of the City.

The Central Texas Athletic Club (CTAC) is a privately owned fitness facility within the City limits. CTAC offers a variety of indoor and outdoor recreational facilities including the only non-ISD tennis facilities within the City. The Club also has the only outdoor volleyball courts located within the City limits.

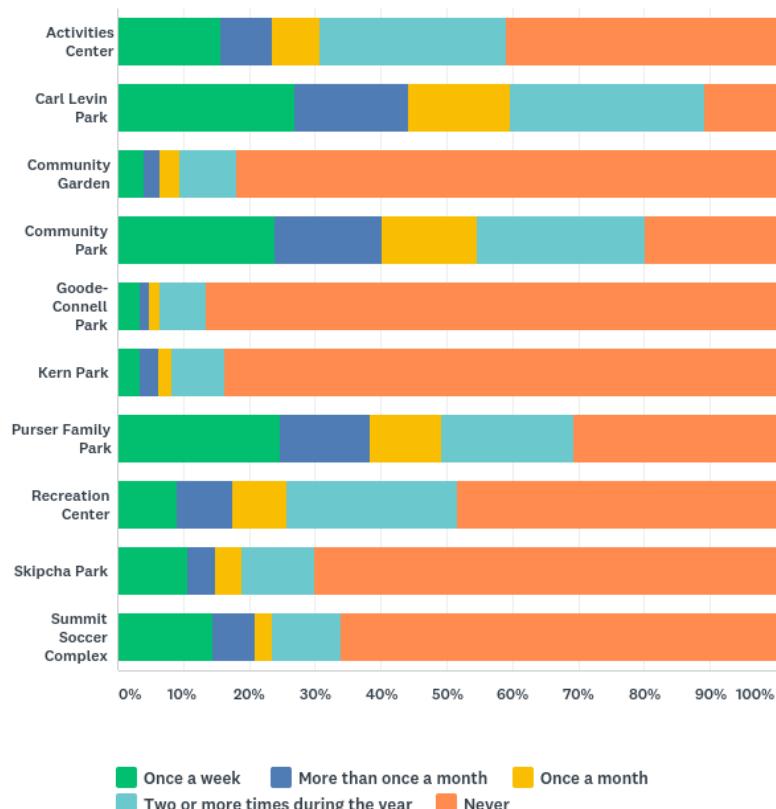

# 6

# NEEDS ASSESSMENT SURVEY PRIORITIES

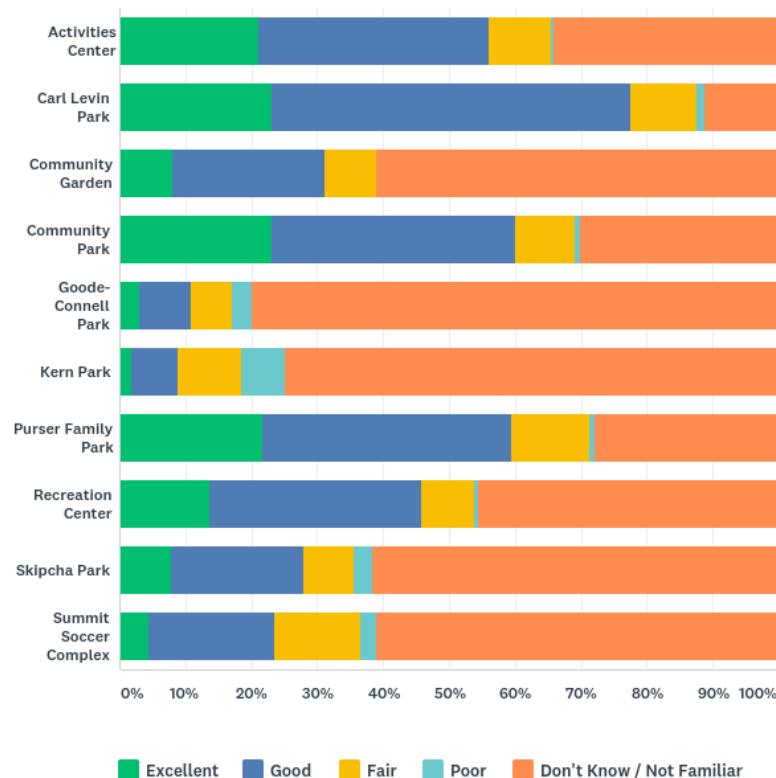

To assist in the development of the City's park priority needs, the City of Harker Heights developed the "Harker Heights Parks, Recreation and Open Space Master Plan Survey 2020-2030" and distributed to the public electronically on the City's web site and through hard copy distribution at the public meetings and other civic events.

357 surveys were completed; the results of this informal public information survey are shown on the following pages:

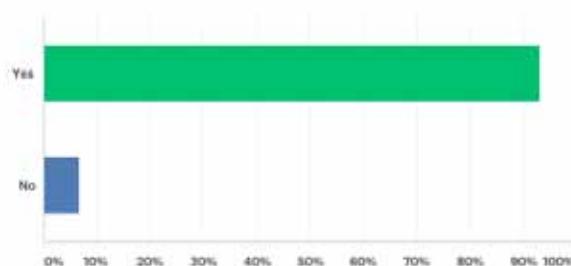

**QUESTION 1: How often have you or members of your household visited the City parks listed below or used recreation facilities in Harker Heights in the last year? (Multiple answers may be indicated.)**

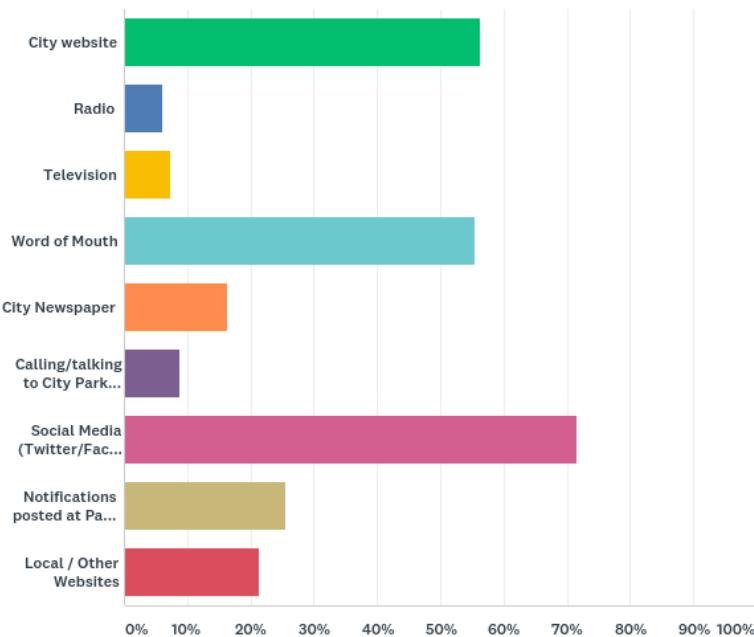

**QUESTION 2: How would you rate the physical condition of the parks in Harker Heights?  
(Multiple answers may be indicated.)**

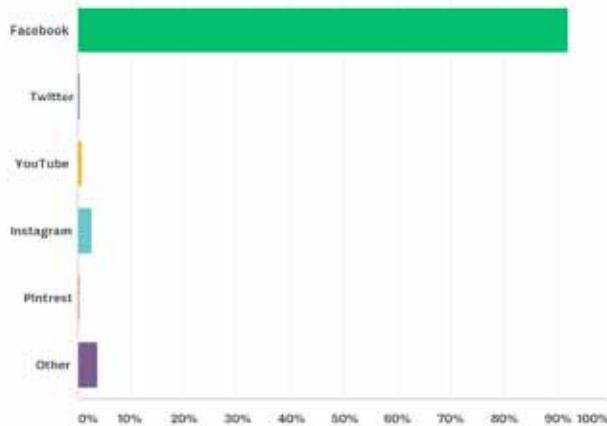

**QUESTION 3: Do you feel as though the City's parks are easily accessible?**

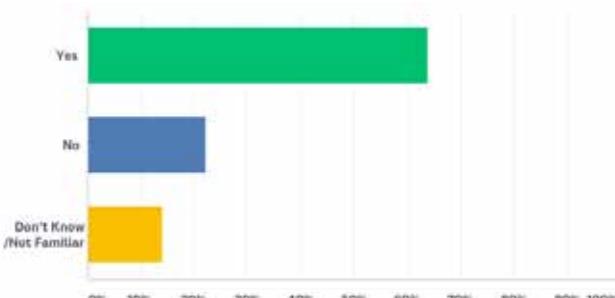

**QUESTION 4: From the list below, please mark the top four ways you learn about parks and recreation activities offered in Harker Heights? (Indicate only four answers.)**

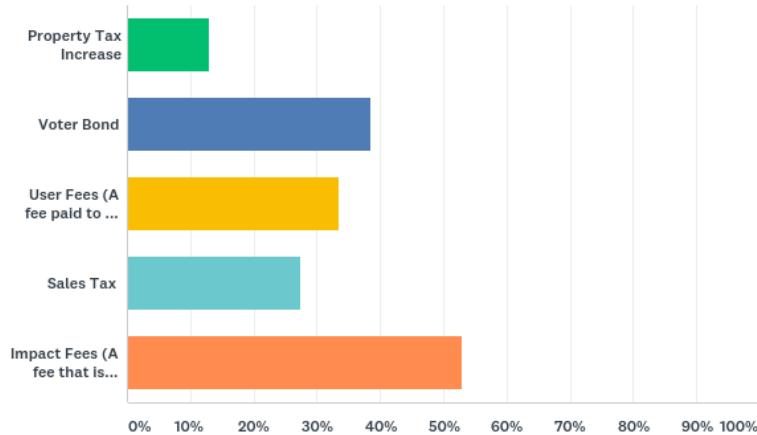

**QUESTION 5: If you selected “social media” in Question 4 as one of the top four ways you learn about parks and recreation activities offered by the City of Harker Heights, which social media platform do you prefer? (Indicate only one answer.)**

**QUESTION 6: Does the City have enough parkland? (Please indicate one answer.)**

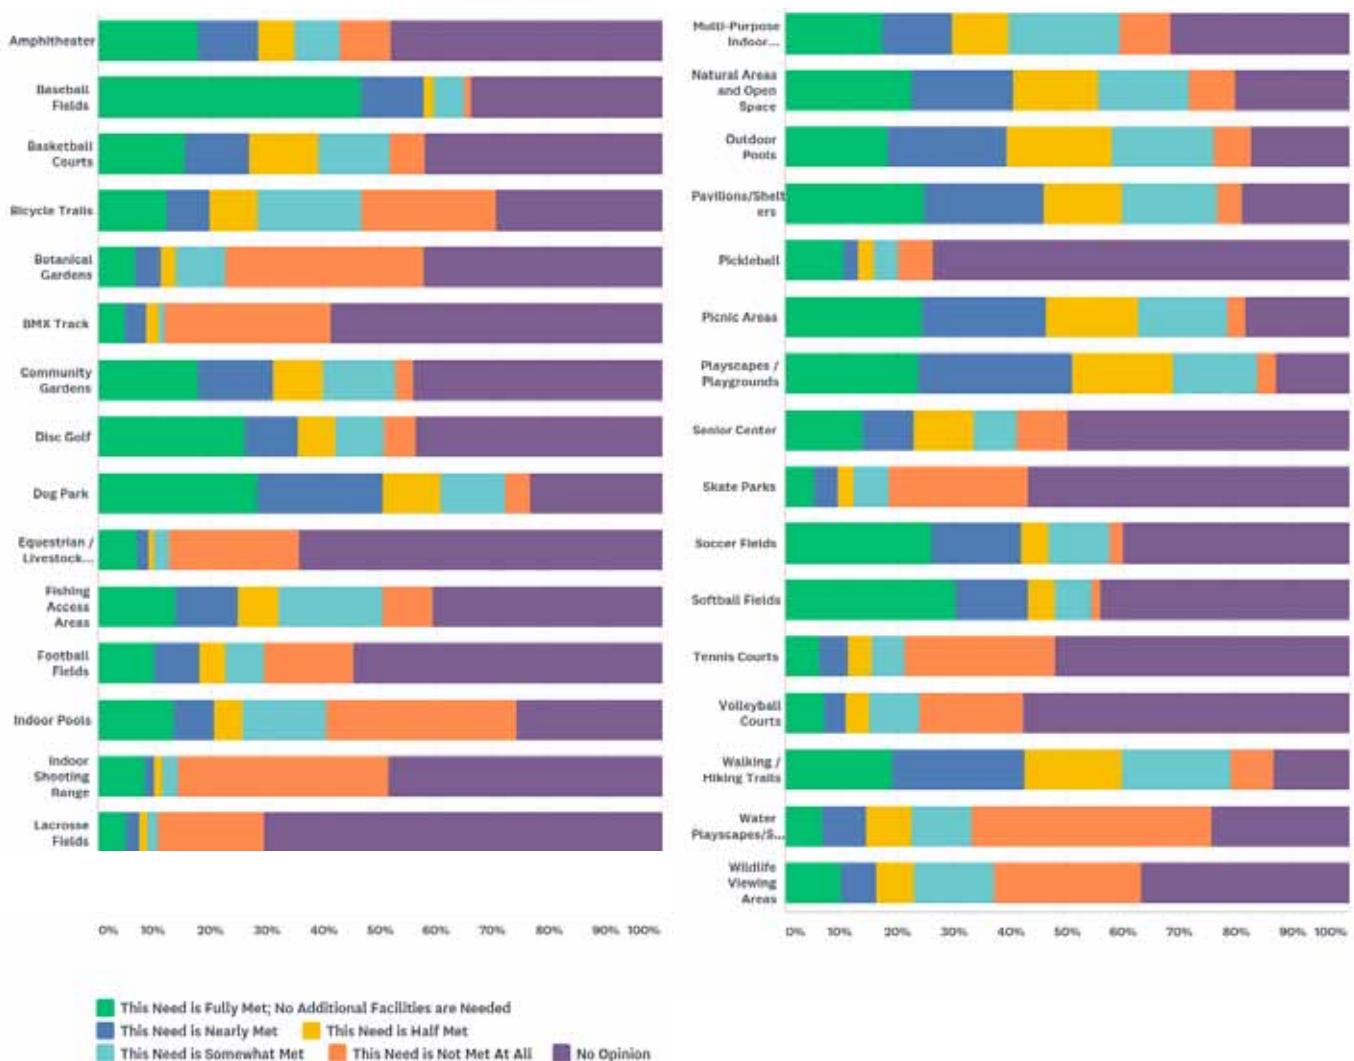

**QUESTION 7: Please identify two, if not more, of the following funding methods you prefer for developing new and existing public parks and recreation facilities.**

**QUESTION 8: What is the single most important issue or need concerning City of Harker Heights parks or recreation programs?**

The City received 220 written responses to this question. All responses are included in Section "9 - Appendix" of this document.

**QUESTION 9: From the FACILITIES listed below, please indicate how well you or someone in your household feels this need is currently being met in existing parks in Harker Heights. (Please indicate one answer for each program activity.)**

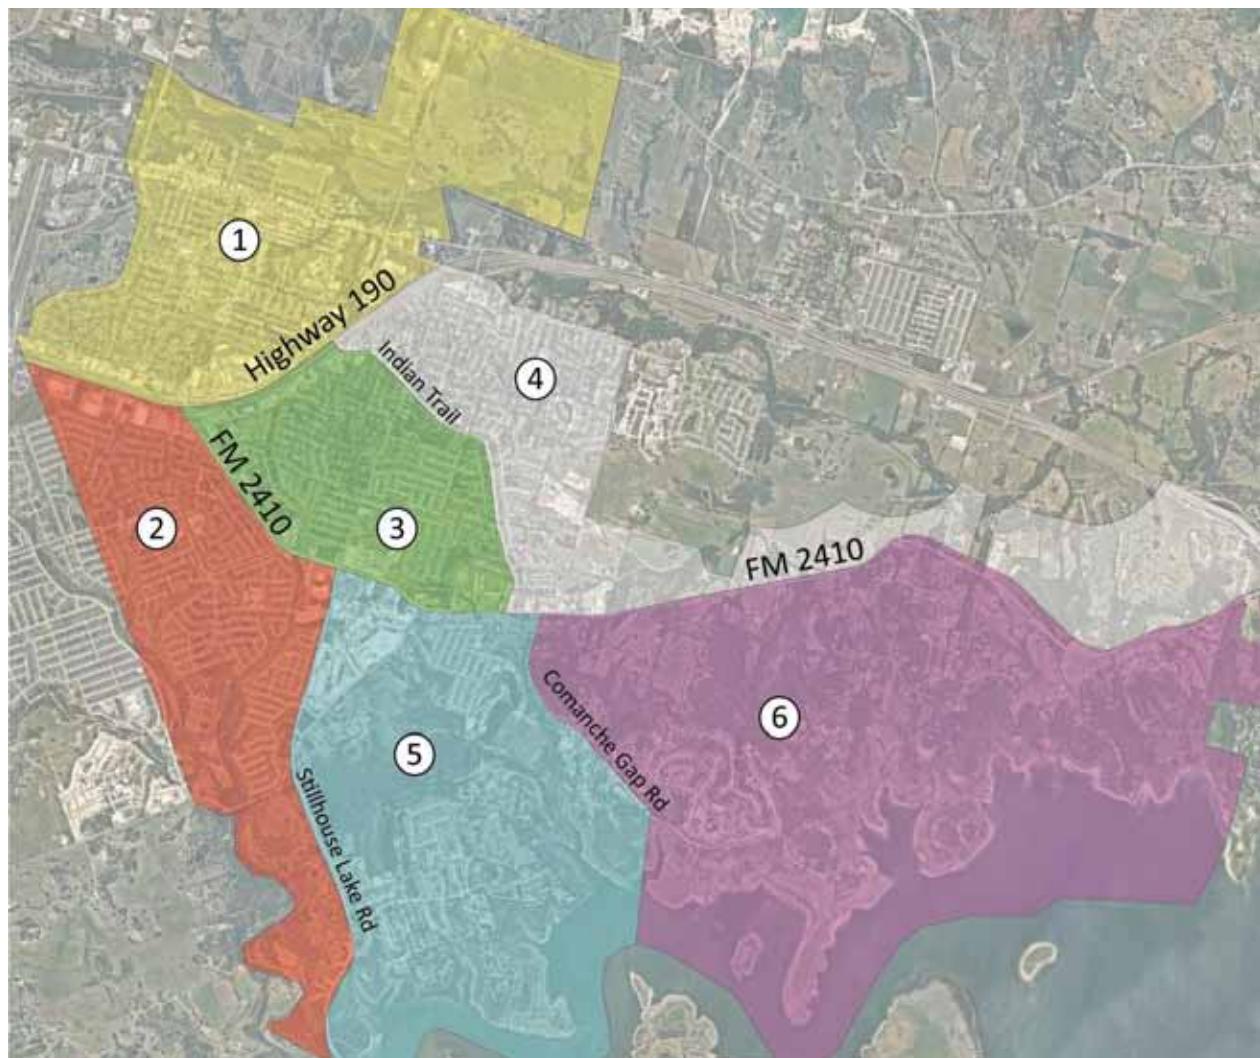

**QUESTION 10: From the FACILITIES listed in Question 9, please indicate the top three that are the most important to your household? (Write in your preference below.)**

The City queried the responses to Question 10 for each of the six areas of the City as depicted in the map subset below. The listings below represent the top park priorities as provided by survey respondents in the area in which they live.

<b>1</b>	<p><b>High Priorities</b></p> <p>Hiking and Walking Trails</p> <p><b>Medium Priorities</b></p> <p>Dog Park      Soccer</p> <p>Senior Center      Playground</p> <p>.</p>	<b>2</b>	<p><b>High Priorities</b></p> <p>Hiking and Walking Trails      Splash Pads</p> <p><b>Medium Priorities</b></p> <p>Playground      Indoor Pool      Dog Park</p> <p>Soccer      Skate Park      Bicycle Trail</p> <p>Outdoor Pool      Tennis Courts      Rec.Center</p>

## AREAS OF THE CITY

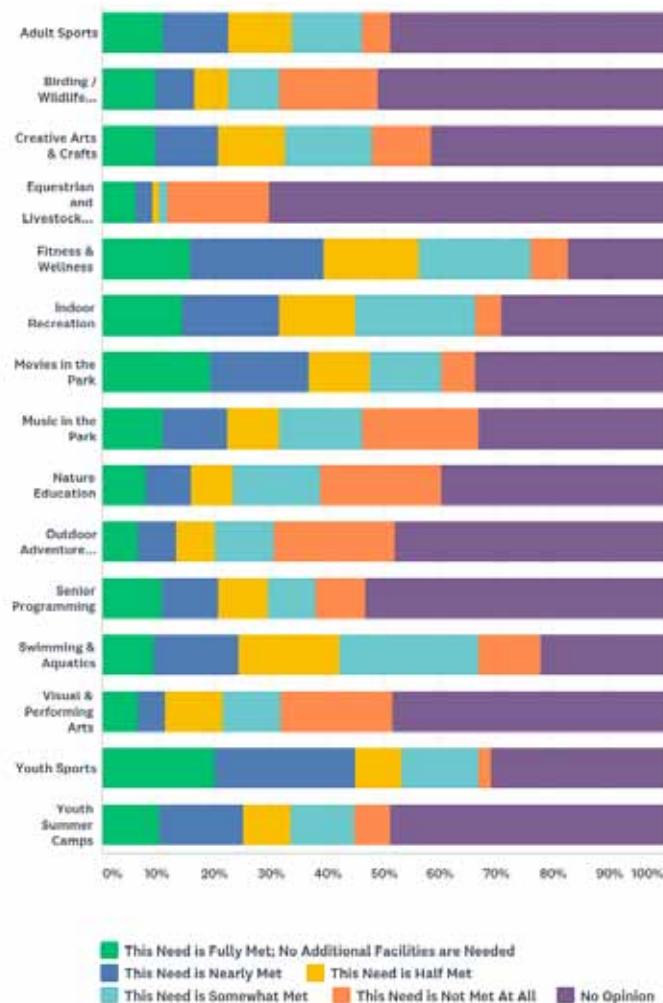

Area 1 (North of Highway 190/Interstate 14)	
Area 2 (South of Highway 190/Interstate 14; West of FM 2410 and West of Stillhouse Lake Road)	
Area 3 (South of Highway 190/Interstate 14; East of FM 2410 and West of Indian Trail)	
Area 4 (South of Highway 190/Interstate 14; East of Indian Trail)	
Area 5 (South of FM 2410; East of Stillhouse Lake Road; West of Comanche Gap Road)	
Area 6 (South of FM 2410; East of Comanche Gap Road)	
Area 7 (Any Area Other than Areas 1, 2, 3, 4, 5 or 6)	

**QUESTION 11: Please list any FACILITIES not noted in the survey that the City of Harker Heights should consider constructing in the future. (List and write in any comments.)**

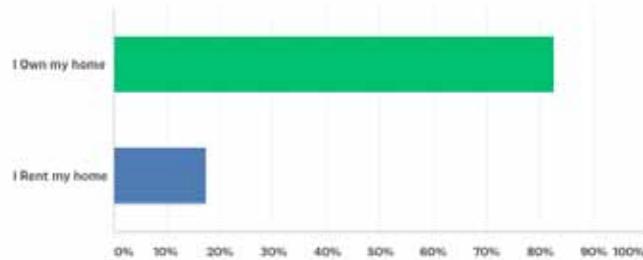

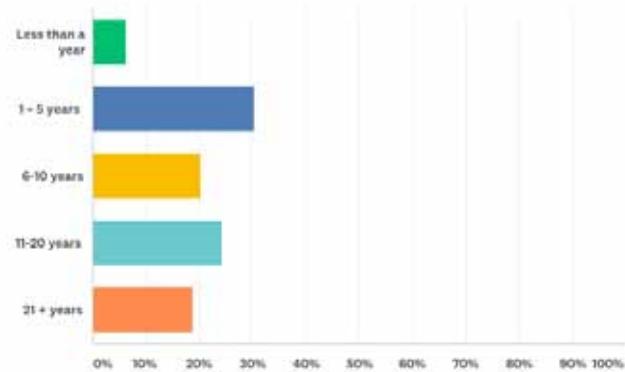

The City received 85 written responses to this question. All responses are included in Section "9 - Appendix of this document.

**QUESTION 12: From the PROGRAMS & ACTIVITIES listed below, please indicate if you or someone in your household has a need for each of the activities or recreational programs. (Please indicate one answer for each program activity.)**

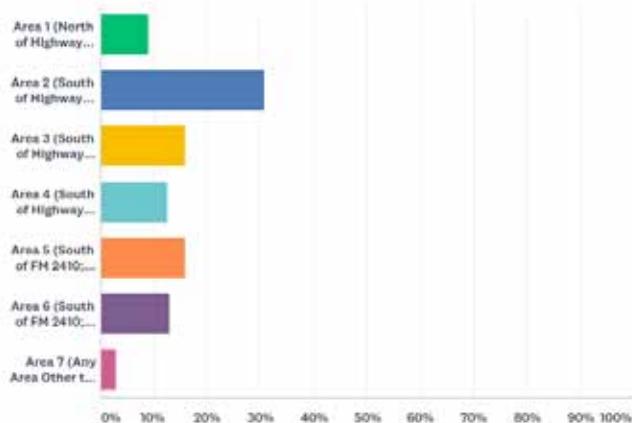

**QUESTION 14: Please list any PROGRAMS/ACTIVITIES not noted in the survey that the City of Harker Heights should consider providing in the future. (List and write in any comments.)**

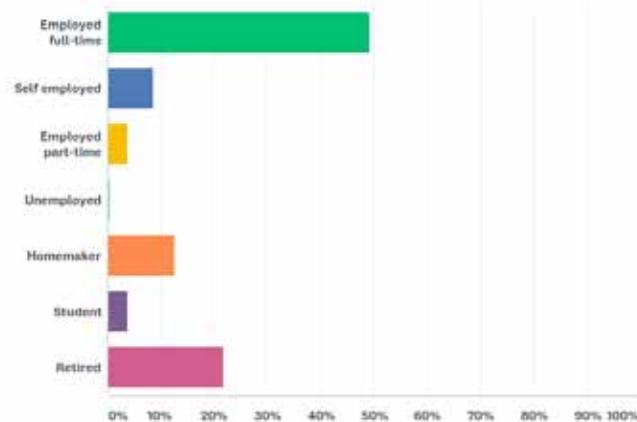

The City received 62 written responses to this question. All responses are included in Section "9 - Appendix of this document.

**QUESTION 15: I am...****QUESTION 16: I Own my home / Rent my home****QUESTION 17: I have lived in Harker Heights for \_\_\_\_\_ years. (Indicate only one answer.)**

**QUESTION 18: Which area of the City do you live in? (Indicate only one answer.)**

**QUESTION 19: I am: (Indicate only one answer.)**

**QUESTION 20: Including yourself, indicate the NUMBER of people in your household who are in the following age categories. (If none, write "0".)**

<u>Age Group</u>	<u>% of Responses to this Question Have an Individual in this Age Group</u>
Under 6 years	56.3%
6-12 years	60.07%
13-18 years	50.37%
19-24 years	41.04%
25-44 years	75.75%
45-64 years	58.21%
65 years and older	41.79

**QUESTION 21: If you would like to be contacted by City Staff as a follow-up to any item on this survey or to be notified of potential volunteer opportunities, please write your name, phone and e-mail below**

The City received 41 written responses to this question.

# 7

# PARK ACREAGE AND FACILITY STANDARDS/GUIDELINES

The National Recreation and Parks Association (NRPA) provides the industry standard for parks, recreation, and open space design as recognized by park planning professionals throughout the country. This master plan follows the latest published nomenclature and standards as outlined by NRPA in the Parks, Recreation, Open Space, and Greenway Guidelines 1990 edition.

NRPA directed each municipality or governmental agency to develop and provide its own guideline for growth and park planning as dictated by local conditions. As such, a numerical nationwide template of standards for parks growth does not exist, although the development of a standard for each municipality is exhorted. Previously, NRPA directed a minimum of 11 acres of parkland /1000 population.

Keeping NRPA directives in mind, the following standards and guidelines are to be used by the City of Harker Heights as a guide for minimum goals to be achieved by the City as its park system further develops. As with any issue that arises, the practice of these standards to specific situations should be applied with the wisdom of the local needs.

For purposes of this master plan, the Harker Heights park system is divided into the following park classifications:

**NEIGHBORHOOD PARKS** - As the basic unit of any City's park system, neighborhood parks serve residents in a 1/4 to 1/2 mile area. Typically, there is little if any parking and roadway infrastructure at the park and the focus tends to be on informal activities and servicing passive recreational needs.

**COMMUNITY PARKS** - Active program elements such as ball fields and larger community based recreation needs are served by the Community Park classification. Typically, these parks range from 30 to 100 acres in size and have a two mile level of service area.

## COMPARISON OF PARK ACREAGE TO ADOPTED STANDARDS - PROJECTIONS FOR 2025 AND 2030

In order to assist the City in acquiring additional parkland to meet the needs of a growing population, the following tables have been developed. Each table reflects a desired acreage amount per 1000 unit of population for each park classification group. These desired acreages are compared to existing park acreages within the City limits. The differences between the existing and desired acreages offer a guideline for the years 2025 and 2030 and provide the City of Harker Heights with a systematic park acquisition goal to meet the needs of the population.

### EXISTING PARKLAND ACREAGE – CITY OF HARKER HEIGHTS

This table lists parkland inventory acreage as indicated in 'Section 5 - Inventory' of this master plan document.

#### Neighborhood Parks

Goode-Connell Park	14.18
Kern Park	4.48
Skipcha Park	5.27

Total Neighborhood Parks Acreage= 23.93 Acres

#### Community Parks

Carl Levin Park	29.69
Community Park	62.14
Purser Family Park	30.29
Summit Soccer Complex	32.77

Total Community Parks Acreage= 154.89 Acres

**TOTAL PARK ACREAGE= 178.82 Acres**

## CITY OF HARKER HEIGHTS PARK ACREAGE GUIDELINES

	Existing 2020 Population of 31,849	Guidelines for 2025 Population of 34,287 <sup>1</sup>	Guidelines for 2030 Population of 36,725 <sup>1</sup>
Facility	Existing Parks AC/1000	Suggested AC/1000	Suggested AC/1000
Neighborhood Parks	23.93 0.75 ac/1000	23.93 0.70 ac/1000	23.93 0.65 ac/1000
Community Parks	154.89 4.86 ac/1000	164.89 4.81 ac/1000	174.89 4.76 ac/1000
Totals	178.82 5.61 ac/1000	188.82 5.51 ac/1000	198.82 5.41 ac/1000

At the time of this writing, the City of Harker Heights is exploring the feasibility of taking over the Maintenance and Operations of Dana Peak Park from the Corps of Engineers as part of a potential lease agreement. While Dana Peak Park will not be listed as part of the official Harker Heights park amenity and acreage inventory, the open space and recreational amenities will directly service Harker Heights residents. A modest increase of twenty acres in City parkland (excluding any park acreage associated with a potential Dana Peak Park lease) is proposed over the next ten year growth cycle for the Parks and Recreation Department.

### Notes:

1. City Staff estimates that total population build out for the City of Harker Heights will occur at 40,000 people around Year 2040. Population projections for Year 2025 and Year 2030 above are based off of "Active Residential Water Accounts Forecast" provided by the City of Harker Heights Planning and Development Department.

## Facility Development Guidelines:

The National Recreation and Park Association (NRPA) has published guidelines for the number of recommended recreational facilities based on population. Information from these guidelines is listed below along with facility development guideline recommendations from LUCK Design Team specific to the City of Harker Heights. The recommendations from LUCK Design Team are in reference to facilities that were not covered in the NRPA recommendations. Proposed guidelines for fiscal years 2025 and 2030 as developed by City staff are also listed below.

### CITY OF HARKER HEIGHTS PARK FACILITY GUIDELINES

Activity / Facility	Guidelines Recommended For Facilities Per Population	Existing Facilities In 2020 Pop. of 31,849	Facilities Proposed For 2025 Pop. of 34,287	Facilities Proposed For 2030 Pop. of 36,725

# IMPLEMENTATION PLAN

The following page represents a condensed action plan of implementation for the Parks, Recreation and Open Space Master Plan 2020-2030. This matrix represents all of the park and recreation goals of the City of Harker Heights and is envisioned to be a working document to guide the City in the future growth of its park and recreation system.

The outline is a proposed approach to implementing the highest recreational facility priorities derived from the public outreach process. By targeting specific high priority items that might be accomplished within the 10-year horizon of this planning document, the City has a proposed approach to meet the current and future park needs of the City of Harker Height

## OUTDOOR RECREATION PRIORITIES

### High Priority Items

1. Walking, Hiking & Biking Trails/Paths/Lanes
2. Picnic Tables (Trail Support Amenity)
3. Benches (Trail Support Amenity)
4. Water Playscape / Splash Pads

### Medium Priority Items

5. Playscapes / Playgrounds
6. Dog Park
7. Outdoor Swimming Pool
8. Wildlife Viewing Areas/ Natural Area and Open Space

### Moderate Priority Items (Long-Range Priority Items)

9. Soccer Fields
10. Tennis Court
11. Skate Park
12. Baseball Fields
13. Fishing /Water Access Opportunities
14. Basketball
15. Softball

It is not the intent of the matrix to encumber City leadership to future expenditures.

City of Harker Heights Parks Implementation Plan 2020-2030							
Recreation Priority	Goal(s) Satisfied from Master Plan	Project Name	Project Location	Project / Phase	Project Description	Funding Sources	Est. Budget Amount
Outdoor Priority - WALKING, HIKING & BIKING Trails/Paths/Lanes	Accessibility	10 MINUTE WALK Plan for Harker Heights	Overall City	Master Planning	Develop Trail Connectivity Master Plan with Goal of 10 MINUTE WALK to City parks and cultural centers as well as connectivity to other Cities' trail systems	City General Fund	\$15,000 - \$20,000
Outdoor Priority - WALKING, HIKING & BIKING Trails/Paths/Lanes	Accessibility	Kern Park ADA and Path Improvements	400 S. Ann Boulevard	Design and Construction	Provide 1/4 mile Loop Trail within the park and ADA access to the existing recreational amenities in the park	Parks General Fund	\$102,400 - \$120,000
Outdoor Priority - WALKING, HIKING & BIKING Trails/Paths/Lanes	Accessibility	Purser family Park ADA Improvements at Playgrounds and Grilling Stations	100 West Mountain Lion Road	Design and Construction	Provide ADA accessible concrete connections to Playgrounds and Grilling stations at Purser Family Park	Parks General Fund	\$10,000 - \$20,000
Outdoor Priority - WALKING, HIKING & BIKING Trails/Paths/Lanes	Accessibility	Carl Levin Park ADA Amphitheater Improvements	400 Millers Crossing	Design and Construction	Provide 140 LF ADA accessible concrete connections to the amphitheater at Carl Levin	Parks General Fund	\$7,000 - \$10,000
Outdoor Priority - WALKING, HIKING & BIKING Trails/Paths/Lanes	Accessibility	Community Park ADA Batting Cage Improvements	1501 East FM 2410	Design and Construction	Provide 80 LF of 6' wide ADA accessible concrete connections to the batting cage at the Community Park	Parks General Fund	\$4,000
Outdoor Priority - WALKING, HIKING & BIKING Trails/Paths/Lanes	Accessibility	Comanche Gap Park Phase 1 - Trail and Trailhead Improvements	Comanche Gap Park	Grant Application, Design and Construction	Unimproved Parking and Trails for Comanche Gap Park	Texas Parks and Wildlife Recreational Trails Grant (Due Feb. 1st); 20% City	Grant Max \$200,000 (80/20 Match)
Outdoor Priority - WALKING, HIKING & BIKING Trails/Paths/Lanes	Accessibility	Summit Soccer Complex - Loop Trail Improvements	Summit Soccer Complex	Grant Application, Design and Construction	Unimproved Parking and Trails for Summit Soccer Complex	Texas Parks and Wildlife Recreational Trails Grant (Due Feb. 1st); 20% City	Grant Max \$200,000 (80/20 Match)
Outdoor Priority - SPLASH PADS	Innovation / Maintenance	Explore possibility of Splash Pad at 3.5 acres of Mountain Lion Road to provide a Splash Pad South of Hwy 190	West Intersection of Mountain Lion Road and Crowfoot Drive	Master Planning	Conduct Due Diligence to see if this site is suitable for a proposed splash pad	City General Fund	No cost; staff time expense
Outdoor Priority - SPLASH PADS	Innovation / Maintenance	Explore possibility of Splash Pad Interlocal with the Armed Services YMCA to provide a Splash Pad North of Hwy 190 Open Year Around	901 S. Ann Boulevard	Master Planning	Conduct Due diligence and approach the YMCA to see if this facility could be open year around; if an interlocal agreement is appropriate, etc.	City General Fund	No cost; staff time expense
Outdoor Priority - PLAYGROUNDS	Accessibility / Maintenance	Certified Playground Safety Institute (CPSI) Certification for City Staff	N/a	Training	Investing in training for City Staff to become CPSI certified	Parks General Fund for Staff Training	To Be Determined
Outdoor Priority - PLAYGROUNDS	Accessibility / Maintenance	Establish Annual Audit Best Practices for Playgrounds	N/a	Training	Investing in training for City Staff to become CPSI certified	Parks General Fund for Staff Training	To Be Determined
Outdoor Priority - PLAYGROUNDS	Accessibility / Maintenance	Summit Soccer Complex Playground	N/a	Training	Install new playground at Summit Soccer Complex	Parks General Fund for Staff Training	To Be Determined
Outdoor Priority - PLAYGROUNDS	Accessibility / Maintenance	Playground at Corner of Indian Trail and Verna Lee	N/a	Training	Install new playground at Corner of Indian Trail and Verna Lee	Parks General Fund for Staff Training	To Be Determined
Outdoor Priority - PLAYGROUNDS	Accessibility / Maintenance	Install Shade Canopy over the playground at Kern Park	400 S. Ann Boulevard	Construction	Provide over existing playground at Kern Park	Parks General Fund	\$20,000-\$30,000
Outdoor Priority - PLAYGROUNDS	Accessibility	Comanche Gap Park Phase 2 - Administration and Playground Improvements	Comanche Gap Park	Grant Application, Design and Construction	Improvements to include parks Admin Office and Interpretive playground area	Texas Parks and Wildlife Local Parks Non-Urban Outdoor Recreation (Due	Grant Max \$750,000 (50/20 Match)
Outdoor Priority - DOG PARK	Maintenance	Develop Maintenance Plan for Dog Park at Purser Family Park	100 West Mountain Lion Road	Master Planning	Develop best practices maintenance plan for the dog park at Purser Family Park	Parks General Fund	No cost; staff time expense
Outdoor Priority - DOG PARK	Accessibility	Install new dog park at Corner of Indian Trail and Verna Lee	Indian Trail and Verna Lee	Master Planning, Design and Construction	Conduct Due diligence with the Public Works department to explore this possibility;	City General Fund	\$400,000 - \$500,000
Outdoor Priority - SOCCER	Maintenance	Provide Irrigation at Goode:Connell Park for the Soccer and Baseball Practice Areas	110 East Beeline Lane	Design and Construction	Develop plans and install irrigation; top dress and level fields for more suitable play	Parks General Fund	\$15,000 - \$20,000
Miscellaneous	Sustainability / Innovation	Develop "Sustainability" Best Practices for the Harker Heights Parks System	Overall City	Master Planning	Examples: Eliminate single use plastic at concessions; place recycling bins next to trash cans, utilize SITES initiatives in new design	Parks General Fund	No cost; staff time expense
Miscellaneous	Sustainability / Innovation	Develop "Innovation in Programming" Best Practices for the Harker Heights Parks System	Overall City	Master Planning	Examples: wildflower meadow to reduce mowing and provide seasonal interest; temporal artwork	Parks General Fund	No cost; staff time expense
Miscellaneous	Sustainability / Innovation	Equip the City's Community Parks with Wi-Fi Capabilities	City's Community Parks	Design and Construction	Provide Wi-Fi infrastructure at each of the City's Community Parks	Parks General Fund	To Be Determined

# 9

# APPENDIX

## **QUESTION 8: What is the single most important issue or need concerning City of Harker Heights parks or recreation programs?**

1. Exciting things for families other than sports.
2. An area that is dedicated to extreme sports (e.g. skateboarding, BMX, roller blading, etc.) is highly needed. None of the City's parks have an area designated for these sports, and it is illegal to practice them in almost all public & private properties!
3. Year around playing field (indoor soccer/football field).
4. We are a small town. Please ensure we don't overextend the budget trying to create too many new parks.
5. Splash pad.
6. Park trails deteriorating.
7. Safety.
8. Safe access.
9. Upkeep trash.
10. More family friendly activities.
11. I have none.
12. Maintenance.
13. Keep poop bag dispensers full and keep parks safe.
14. Sidewalk at Kern Park and a dog park with separate areas for dog size.
15. Why does it take so long to fix problems in the parks. Lights stay out for months leaking irrigation making muddy areas trash cans over flowing on weekends trimming of areas mowed not done.
16. Hiking trails along the lake, new soccer fields that reflect the excellence of our city, natural areas and green belts with a central arboretum of native tree, plants and flowers.
17. Safety.
18. Safety.
19. Safety.
20. Recycling bins + connected trail system.
21. Keen park needs more attention.
22. Recreation joggers.. No dog.
23. Handicap accessible playground.
24. Trying to take the only mountain bike trails around.

25. More exposure.
26. Accessibility to the trails at Dana Peak for biking during city control by lease.
27. When the smaller kids are playing soccer or mainly tee ball doesn't seem like there very much city staff involved at all to keep stuff flowing properly.
28. More hike/bike trails.
29. Splash pad or water park.
30. It'd be nice to have more shaded areas for trails especially due to heat.
31. Summit Soccer fields needs some seating and shaded areas for people that are watching. Also not scheduling the games at the same time to make it more single parent friendly.
32. Cleanliness and safety.
33. Keep investing in our parks and community.
34. Nature trails which are accessible to families.
35. Pool access.
36. Skateboard/BMX park.
37. Needing more dog parks instead of one that everyone goes to.
38. Shade for purser. Completion of bike path on Rosewood that leads to Purser.
39. Keeping them nice.
40. Parks should have shade for kids and water fountains for kids year around.
41. A place for the community to gather safely.
42. Safety at the parks.
43. Larger bus for community activities.
44. More activities for residents to enjoy: like classes, movies in the park, kite day, to name a few.
45. Walking areas off the streets as the streets are very narrow.
46. Need more green space in general and not all of it manicured.
47. Summit Soccer Complex is awful for both recreational teams and travel teams.
48. They need to clean bathrooms daily!
49. The parks in Heights are fantastic. Kern park needs some care and access to a bathroom when it is being used. Besides that it's great.
50. Bathrooms at the pool are horrible and always smell like urine.
51. Draw commercial business to our city - a place for citizens to recreate.
52. We need some lighted tennis courts.
53. Tennis walls for self play/practice.
54. Not enough green space. I prefer to go to parks in other cities that have greenbelts and trail systems. Other than Purser Park, Harker Heights parks resemble treeless parking lots. It should be remembered that a persons needs change over time. At one time my focus was playgrounds and

- youth sports, now it is fitness and nature.
55. Nothing.
56. We need parks in all areas of the city, older areas are lacking recreation programs.
57. Getting a calendar of events for each program.
58. Support for workers that have great ideas.
59. City growth.
60. Enough volunteers to meet the demand and putting the messages and communication out on social media.
61. More hiking and preserve lands.
62. Family life.
63. Bicycle lanes, bicycle skills park, more bicycle friendly.
64. None.
65. Side walks in neighborhoods.
66. Security scans during the early and late hours.
67. Broken lights/ lights out.
68. Visibility and advertising.
69. Keep parks especially Skipcha Park in better condition.
70. Need more access for seniors pickleball.
71. More shopping stores.
72. Parks and Rec programs are doing fine.
73. Most important for me is the senior citizen programs and services.
74. Need outside tennis/Pickleball courts. There are volley ball and basketball courts but no tennis courts in HARKER heights. You can combine tennis and Pickleball courts by painting lines on the surface. You can also put basketball hoops and volley ball on the same courts. We will need at least four courts.
75. Make sure all neighborhoods have safe access to all parks through the use of wide sidewalks and trails.
76. None.
77. None.
78. More things for children and seniors.
79. Need public Tennis Courts. I've been asking for 20 years!!!
80. Senior Activities need a bigger bus for day trips.
81. Use pylons to keep trucks from backing up over the walking paths. People get hurt when running. I have witnessed this walking in Purser Park in the early mornings.
82. Recycling bins next to trash bins; community composting center, more areas to affordably rent for outdoor events.

83. Ensuring year round shaded areas in parks, preferably by trees
84. Being accessible through sidewalks in the city - Even for the small parks that are near me, I need my car to get there as the walk to the park, even short, is TOO dangerous.
85. Advertising
86. User friendly
87. Safety of equipment for my children
88. Spectacle, the parks are nice but basic. With the military influence and range of cultures the parks should grab themes and ideas from around the world. Our parks should not just be run of the mill parks. With the majority of the residents spending time in countries with hundreds of years of history it silly not to have world historical education intertwined with our parks.
89. More pickleball time.
90. Need to have new and different amenities at each park.
91. Trash collection! In Purser Park there is more often than not trash in the water areas. I notice this in Carl Levin as well.
92. Need a bigger or second pool in the area with better hours.
93. Ensure youth in the area have activities in the summer.
94. Would like all the facilities to have multiple activities available. Currently, only one disc golf course, only one of the facilities I'm familiar with has basketball. Would be nice to have more choice.
95. Updating and renovations to existing structures.
96. Having activities that can be repeated various times of the year regardless of the seasons (cold weather camping, polar bear swims, hot cocoa in the park (spin off from the popsicles), various sports that can be done indoors as well. Also, Heights could really use another city sponsored activity or event that draws in a large amount of both citizens and noncitizens. Food, Wine & Brew fest is great but sponsored by the Chamber. If the Parks dept. could have their own "Fall Fest" or "Spring Spectacular" that is an annual event that folks could look forward to you may begin to gain more traction and draw to the area.
97. Community activity rooms in the parks to rent for events (ex. Parties). W/Full prep facilities.
98. Safe environment for families.
99. The trash at Goode-Connell Park is often overflowing (I think the apartment people use them) and some grass areas gets missed sometimes when it's cut.
100. Safety. Park security guards (doesn't have to be police officers) that patrol parks.
101. Finding and keeping qualified Parks and Rec staff.
102. They need to focus on the up keeping of existing parks rather than taking on new projects that cost.
103. We need a skate park in Harker heights.
104. More programs encouraging to use the parks.
105. Need a splash pad.
106. Harker Heights needs a skateboard park.

107. Bathrooms.
108. Lots of programs for small children. Not much for pre-teens/middle schoolers.
109. We are still new here trying to find out.
110. Updating the Recreation Center and its amenities.
111. With such hot summers, it's difficult to find any places we can enjoy outside (spray pad, biking paths, sidewalks in neighborhoods).
112. We need more parks.
113. Need water fountains, shade and restrooms.
114. More qualified coaches.
115. Bathrooms at parks and better communication between Parks and Rec and the programs offer.
116. We would love to have a free splash pad!
117. Not sure.
118. Leave Dana Peak Park alone.
119. More activities for kids like a splash pad and more shade covering the playground.
120. FUNDING! I know it's hard to stretch that dime into a dollar you need.
121. I know it's hard to control, but the soccer fields have quite a lot of ant piles.
122. Better screening of volunteers and participants. Maybe some type of incentive.
123. Opportunities for youth.
124. Get rid of all the brush.
125. Security.
126. The kids sports rec could be drastically improved, there is no reason our citizens should leave the community to play in other cities. My involvement in the baseball and softball teams has shown me that we have poor communication and organization by the city staff in charge. When I am told by staff that I should feel privileged for what work they do indicates the wrong attitude set forth by the director.
127. Cleanliness. They were cleaner a few years ago than they are now. It almost seems as though no one checks them.
128. Summit Soccer Fields needs at least a long bench for the players to sit down on.
129. A larger gym with more courts and workout area.
130. More staff members.
131. Lack of communication.
132. Lack of amenities comparable to other cities with similar property tax .
133. Summit fields need a place for parents to sit just a little bench even if just for the kids on the sidelines also there are a ton of holes on the field a kid could easily be hurt.
134. More free activities for children, like a splash pad.
135. Harker Heights is really doing a great job. Know some of us are very appreciative!

136. Development of Dana Peak Park. Living in the Ridge prefer the peace and quiet. Cannot afford another property tax increase as already being taxed out of our home.
137. Use of unused space for natural park areas, walking trails, fishing etc.
138. Summit soccer field stink. Sewage smell in that area.
139. All proposed future should be brought to a vote by the citizen's not just the city council.
140. Summit Soccer fields needs some seating and shaded areas for people that are watching.
141. Sun/shade cover.
142. Security.
143. Don't know.
144. Upgrade Summit Park.
145. Growing larger annual community events.
146. Cleaner bathrooms and more activities for kids and adults.
147. Fall softball would be great. They offer soccer twice a year. It would be nice if they offered softball twice a year as well.
148. Lack of water activities or areas for families during the summer. For the amount we pay in property taxes there should at least be a splash of for the kids to play in.
149. I would like to have more gyms available for playing basketball with kids.
150. Ensuring there are enough diverse activities to children actively engaged.
151. Have all gates open when games are going on, gate by batting cage almost always closed.
152. More restrooms and shade covering the children's area. An area for toddlers is needed.
153. What came first, the sewage treatment facility or the soccer complex? Highly inconvenient to watch your child play youth sports with the smell in the air. City planners did not think this one out.
154. Safety and cleanliness.
155. Leave Dana Peak Park alone!
156. Proximity to living areas.
157. Maybe just leave Dana Peak park alone and not worry about taxing residents. To create it into a money making project but no plans of widening roads and no other exit for residents of the Ridge is unsafe. Also, residents of the Ridge paid premium to be away from noisy areas. Maybe find another place to build parks instead of rebuilding an existing park.
158. Need more advertising.
159. More options such as water parks. Ex. Summer Fun USA.
160. You have enough parks, you just need to improve them and enforce park rules. Need more shade and less playgrounds. Improving the landscaping and making sure the existing plants and trees are thriving would do a lot toward making them nicer places to visit. Please do NOT turn Dana Peak Park into what all your other parks are. It is the only nice place left in Harker Heights that you can really enjoy nature and beautiful scenery!!

161. Restrooms,drinks.
162. Safety.
163. No more property tax hikes.
164. The parks need trees. I used to used the community park for running, but it gets too hot without shade. That's park in particular needs more trees. Also, limited amount of
165. Charge users and not homeowners. A lot of homeowners never use facilities, why should they pay for others to use?
166. More trees and tables.
167. Put the word out on the current parks you have, and make them better.
168. No splash pad in the city.
169. Preserve Dana Peak. Leave as it is.
170. Improve what already is here - until this survey didn't know we had this much.
171. Don't raise property taxes to fund parks.
172. The condition of the baseball softball & soccer fields when it rain.
173. Up keep.
174. No skate park at any park here in Harker Heights.
175. More lighting in parks and access to more water fountains throughout trail.
176. There's nothing around the parks. Partner with retail locations to create experiences and destination, multi-use property.
177. Safety.
178. Facilities for pre-teens and teen. Such as a skate park.
179. Splash park.
180. To my family it's pool accessibility. Morning hours. Another pool built to fit the crowd or constant closing due to pooping? Splash pad?
181. We need additional community pools.
182. Effort to keep programs fun and competitive for the kids. Find ways to help preserve resources such as a protective Canopy over the batting cages at the Community Park to help maintain better condition of the facility.
183. Play structure upkeep.
184. Safety.
185. More variety (such as tennis courts, splash pads, basketball courts).
186. Additional activities (tennis, water park).
187. Needs better lighting.
188. Homeless/dog poop.
189. Safe access and close proximity to neighborhoods.

190. A splash park and access from Skipcha Final to Skipcha Park that is not on Stillhouse Hollow Road. Clear out that nasty swamp creek thing and make it a park.
191. Mowing & keeping parks up.
192. Responsibility of those who use the park--and fines for those who don't. i.e. picking up their dog waste. I generally pick up 4 to 5 piles each time I walk at Community Park.
193. Abuse of parks, people are driving through Carl levin park every weekend to get to the reserved areas. Y'all need to gate off the park to vehicular traffic.
194. Keep them pretty.
195. Safety.
196. A water park or splash pad would be nice.
197. Bike lanes.
198. We need a splash pad!! It's too hot in TX to enjoy the parks without a way to cool off. A splash pad would be a great way to do that!
199. Splash pad needed.
200. Lack of trees.
201. More teenage/children programs.
202. Keeping them safe.
203. Trees need to be trimmed of dead branches in Purser Park.
204. A splash pad.
205. Summit Soccer Complex could use a sidewalk around the complex for people to walk around for exercise. Also clean up the area around the creek, maybe make something for kids to fish in. Kern Park is a big park for a small playground. Needs more attention. These 2 parks are the oldest in Harker Heights and I just feel like this side of town is being neglected.
206. Purser park has a lot of hazards.....3 and 4 foot drop offs along walking path, numerous dead trees with large limbs falling off, swampy/slim growing in creek because no one cleans them out, tree branches hanging down below eye level all over park. Lot of safety hazards in my opinion.
207. The dog park is gross. People don't clean up after their dogs like they are supposed to. It needs a regular cleaning and maybe get more strict in those who don't clean up after their dogs. Also, I feel like children under 10 shouldn't be allowed in the big dog park area. My dog loves people and other dogs but I can't take her to the park when there are small children in the park because she gets scared and I'm afraid she'd hurt a small child. It's just not safe for kids no matter how well behaved people think their kids are. So the issue of the dog park should be addressed. Also, a LOT of residents in our Facebook page talk about how they'd like to see a splash pad for kids at one of the parks.
208. Getting the information out to the public.
209. Shade! Going to sporting events here for Grandchildren is almost unbearable. Pavilions and trees are needed.
210. Some of the parks need an increase police Patrol.

211. Shaded playground areas! The playground structures get very hot to the touch in the heat making some parts unusable (ie slide, climbing parts).
212. Better covers to block the sun and keep the slides cool. Also add watering areas for dogs to all parks with dog walk areas.
213. Pet waste cleanup.
214. Need for a splash pad.
215. They all need SHADE! Harker Heights Community park has -no- shade on the playground equipment itself and it's brutal on the little ones!
216. Safety.
217. Connectivity.
218. More activities posts
219. We need a splash pad like other towns.
220. Funding to provide new amenities in our parks.

**QUESTION 11: Please list any FACILITIES not noted in the survey that the City of Harker Heights should consider constructing in the future. (List and write in any comments.)**

1. Skate Parks (which are covered by a roof).
2. Splash pad.
3. Canal system between lake Belton and lake Stillhouse to be used for kayaking, canoeing, and or rafting.
4. Bike Trails.
5. Whatever happened to volleyball at community park.
6. Nature Trails similar to Chalk Ridge.
7. Arboretum of native trees, plants and flowers.
8. It would be awesome to have an all abilities playscape/playground, a water playground/ Splash pad, and a tennis court.
9. Hospital near the night way Dr.
10. Mountain biking trails.
11. BMX Track.
12. Walking & hiking trails.
13. Skate park.
14. Zoo, outdoor players theatre, more senior activities with tours, and more community sidewalks.
15. Running trails, indoor pool.
16. I would like to see the city develop the old oakridge neighborhood golf course into a community park. There is trails, greens, a pool and lots of room for anything the community needs.
17. Recreational pool center.
18. Tennis courts?
19. Bigger playgrounds - need family activities.
20. None it's a waste of money and time.
21. Indoor soccer field.
22. Bicycle skills park.
23. Sidewalks in neighborhoods.
24. Dana Peak camping area.
25. Senior center on indian trails. Need more activity rooms/ activities.
26. None.
27. A place for people with special needs and seniors can go and feel like apart of the community.
28. Larger library.
29. No sure.

30. Indoor pool.
31. None.
32. Botanical garden.
33. Senior Center with indoor exercise area.
34. Community self-serve recycling center.
35. Cant think of anything else.
36. A dedicated SENIOR Center.
37. Swimming pool.
38. Splash pad.
39. Garden maze.
40. Horseshoes.
41. Golf putting areas! OOO! GOLF LESSONS! This may be a library/activities center thing but having a "Teen Room" or rather an open, specific teen gathering area within one of the existing city facilities that could have more teen-esque atmosphere that is monitored and safe (think gaming consoles, popcorn machine, ping-pong table, big screen tvs).
42. Cheer/Gymnastics Areas.
43. A bigger, free public gym with walking trails to encourage a healthy community.
44. Multi-purpose complex like in McAllen,TX.
45. Too broad a question. I'd like to see additional parks with outdoor pools and or spray pads for the kids; walking/hiking trails; dog parks; picnic areas; Disc Golf; Amphitheater, Bike Trails.
46. Water Park.
47. Splash Pad.
48. More Bathrooms (clean).
49. FOOTBALL FIELDS FOR YOUTH FOOTBALL LIKE ROUNDROCK MULTIPURPOSE COMPLEX. FOOTBALL IS YEAR ROUND, THIS WILL BRING LOTS OF PEOPLE TO HARKER HEIGHTS AND WILL BOOST OUR HOTELS, RESTAURANTS AND LOCAL BUSINESSES.
50. Sand Volleyball Court, Tennis Court, Splash Pad.
51. All-abilities playground.
52. More trees.
53. Restrooms and drinking fountain and sidewalks in residential areas. Also needs crosswalks (mid block) in high traffic areas near the schools (Skipcha in particular)
54. None.
55. Street hockey rink.
56. Gazebos.
57. More trash cans in the parks.

58. Zen or tranquility space.
59. Indoor Pool Space.
60. On street bike lanes to Park Facilities - like Kern Park since there is not a parking lot.
61. Summit Soccer Fields needs a bench for players to sit down on.
62. Skate park, Another outdoor park with a pool.
63. Splash pad?
64. Indoor Sports Arena.
65. Out door splash Parks with amphitheaters and more sidewalks with trash and poop bags.
66. Sidewalks and lights along Stillhouse road.
67. Football, soccer, indoor pools, tennis, volleyball.
68. Healthy restaurants.
69. Putt putt golfing, facilities like MAKS in Copperas Cove.
70. Stop constructing and start improving existing sites!!
71. Botanical gardens.
72. Porta Potty's along hiking/biking trails.
73. A small park in The Ridge.
74. FIX what we have. INFORM public as to what we have; don't try to create more by spending more.
75. None.
76. Additional disc golf course.
77. N/A.
78. PLEASE build a splash park!! And better covers and benches at the parks. Its HOT in TX and although there is some cover, it's too far away from where kids play. We need to be closer to the kids.
79. Botanical Gardens.
80. Indoor pool with slides and lazy river.
81. Splash pad!
82. Dog water areas on all the water fountains. Make sure all parks have filter water fill ups.
83. Dog playscape/agility course.
84. Archery.
85. Splash pad along Mountain Lion Road.

**QUESTION 14: Please list any PROGRAMS/ACTIVITIES not noted in the survey that the City of Harker Heights should consider providing in the future. (List and write in any comments.)**

1. Outdoor theatre.
2. Golf archery paint ball.
3. More tech/art activities offered by library.
4. None.
5. Trail bike skipcha mountain.
6. BMX Track.
7. More youth programs/classes..etc. (like swimming lessons, Dance classes for kids like Ballet or tap, Fun activities for the summer for kids).
8. Community/senior tours within the United States or abroad; nature hike, walk, and bike trails, increase our towns walkability score.
9. Theatre and music.
10. Tennis.
11. More community activities.
12. Tennis.
13. None it's a waste of money and time.
14. Biking.
15. None.
16. Ballroom dancing,tap dancing,stage plays.
17. Senior Travel Trips.
18. I am not sure.
19. Speakers at Senior Center/Library on topics such as Alzheimer's, senior Health etc.
20. Lunches for seniors.
21. Nine.
22. Geocaching, Kid exploring programs, Park cleaning events.
23. Yoga and gym for Senior with a REAL instructor .
24. Survival skills.
25. Senior softball.
26. Festivals.
27. 5k and 10k running races.
28. Skeet Shooting...?, Disc Golf Competitions hosted by the City?

- 29. Adult dance classes.
- 30. Cheer/Gymnastics.
- 31. Youth/Teen football camps.
- 32. Karate.
- 33. Adult volleyball.
- 34. MORE FOR PRE-TEENS BETWEEN THE AGES OF 11-14.
- 35. More programs for teens and family .
- 36. Annual Music in the Park Festival, Zumba Class,.
- 37. Closer tie in with BSA to camp in the parks (mostly just the Cub Scouts).
- 38. Nothing needs to be added.
- 39. Yoga.
- 40. A summer cohesion program. Where I used to live it went from 9am til noon or 1 depending on the year. Kids did sports, crafts, etc. fees were income based. at or below poverty level was free then went from small to larger fees depending on income. most of the workers were high school and college kids. Again they played games and sports and did simple crafts like coloring and painting pictures also made kites out of trash bags and balsa wood. It gave the elementary students something to do in summer.
- 41. Youth Sports - Basketball for the older divisions.
- 42. Water Park.
- 43. Skate park.
- 44. July 4 fireworks?
- 45. Senior trips.
- 46. Day sports classes for adults like yoga.
- 47. 1812 Overture Music Event in Park. Maybe an annual event.
- 48. Cheer leading and football.
- 49. Fall league baseball youth.
- 50. Fishing, duck hunting, hiking.
- 51. Don't stop the parades and yearly Santa's ride through the city.
- 52. None, you have enough.
- 53. Nude Star Bathing.
- 54. Water activities, kayaks, boating, fishing etc.
- 55. None.
- 56. Carnival.
- 57. Continuing education type classes not just for seniors.

58. N/a.

59. Camping.

60. Splash pad.

61. I believe Harker Heights does a fantastic job in providing to the citizens excellent opportunities, a well trained staff and am grateful for all that is currently offered. (Would be nice to have an indoor pool though.)

62. Resource conservation education (water etc).

# **Harker Heights Parks, Recreation and Open Space Master Plan Survey 2020-2030**

The City of Harker Heights is currently preparing the Harker Heights Parks, Recreation and Open Space Master Plan 2020-2030 (Plan) to guide the long-range planning of parks and event facilities within the City. Public input is an important portion of the Plan.

To ensure the public has an opportunity to voice their opinion, City officials ask citizens living within the City of Harker Heights, the Harker Heights Extra Territorial Jurisdiction (ETJ), and Killeen Independent School District to participate in a short 21-question survey. Answering survey questions will allow individuals to express opinions, wants, and needs regarding City owned and managed parks and event facilities, the future development of open space in Harker Heights, and recreational programs. The results of the survey will be viewed in context with other input received from the public to establish the highest need park priorities within the City.

Please complete this survey by indicating the answers that best reflect your attitudes and opinions.

Your opinion is important and the City would like to thank you for taking the time to complete the survey.

**1) How often have you or members of your household visited the City parks listed below or used recreation facilities in Harker Heights in the last year? (Multiple answers may be indicated.)**

How often do you visit parks in Harker Heights?	Once a week	More than once a month	Once a month	Two or more times during the year	Never
Activities Center					
Carl Levin Park					
Community Garden					
Community Park					
Goode-Connell Park					
Kern Park					
Purser Family Park					
Recreation Center					
Skipcha Park					
Summit Soccer Complex					

**2) How would you rate the physical condition of the parks in Harker Heights? (Multiple answers may be indicated.)**

	Excellent	Good	Fair	Poor	Don't Know / Not Familiar
Activities Center					
Carl Levin Park					
Community Garden					
Community Park					
Goode-Connell Park					
Kern Park					
Purser Family Park					
Recreation Center					
Skipcha Park					
Summit Soccer Complex					

**3) Do you feel as though the City's parks are easily accessible?**

(Please indicate one answer.)

Yes		No	
-----	--	----	--

If you answered "No", why do you think the City's parks are not easily accessible?  
\_\_\_\_\_  

---

**4) From the list below, please mark the top four ways you learn about parks and recreation activities offered in Harker Heights? (Indicate only four answers.)**

City website		City Newspaper	
Radio		Calling/talking to City Park employees	
Television		Social Media (twitter/Facebook/etc.)	
Word of Mouth		Notifications posted at Park Facilities	

Other (List): \_\_\_\_\_

**5) If you selected "social media" in Question 4 as one of the top four ways you learn about parks and recreation activities offered by the City of Harker Heights, which social media platform do you prefer? (Indicate only one answer.)**

Facebook	
Twitter	
YouTube	
Instagram	
Pintrest	

Other (List): \_\_\_\_\_

**6) Does the City have enough parkland? (Please indicate one answer.)**

Yes		No		Don't Know /Not Familiar	
-----	--	----	--	--------------------------	--

If you answered "No" where do you think new parks are needed?  
\_\_\_\_\_  

---

**7) Please identify two, if not more, of the following funding methods you prefer for developing new and existing public parks and recreation facilities:**

Property Tax Increase	
Voter Bond	
User Fees (A fee paid to a facility owner by a facility user as a necessary condition for using the facility.)	
Sales Tax	
Impact Fees (A fee that is imposed by the City on a new or proposed development project to pay for the costs of providing public services (for example, a new park) to the new development.)	

Other (List): **HARKER HEIGHTS PARKS, RECREATION AND OPEN SPACE MASTER PLAN 2020-2030**

**8) What is the single most important issue or need concerning City of Harker Heights parks or recreation programs? (Write in any comments.)**

---

---

---

---

**9) From the FACILITIES listed below, please indicate how well you or someone in your household feels this need is currently being met in existing parks in Harker Heights. (Please indicate one answer for each program activity.)**

This need is:	Fully Met; No Additional Facilities are Needed	Nearly Met	Half Met	Somewhat Met	Not Met At All	No Opinion
Amphitheater						
Baseball Fields						
Basketball Courts						
Bicycle Trails						
Botanical Gardens						
BMX Track						
Community Gardens						
Disc Golf						
Dog Park						
Equestrian / Livestock Arenas / Showbarn						
Fishing Access Areas						
Football Fields						
Indoor Pools						
Indoor Shooting Range						
Lacrosse Fields						
Multi-Purpose Indoor Recreation Center						
Natural Areas and Open Space						
Outdoor Pools						
Pavilions/Shelters						
Water						
Pickleball						
Picnic Areas						
Playscapes / Playgrounds						
Senior Center						
Skate Parks						
Soccer Fields						
Softball Fields						
Tennis Court						
Volleyball Courts						
Walking / Hiking Trails						
Water Playscapes / Splash Pads						
Wildlife Viewing Areas						

**10) From the FACILITIES listed in Question 9, please indicate the top three that are the most important to your household? (Write in your preference below.)**

\_\_\_\_\_ 1st \_\_\_\_\_ 2nd \_\_\_\_\_ 3rd

**11) Please list any FACILITIES not noted in the survey that the City of Harker Heights should consider constructing in the future. (List and write in any comments.)**

\_\_\_\_\_  
\_\_\_\_\_

**12) From the PROGRAMS & ACTIVITIES listed below, please indicate if you or someone in your household has a need for each of the activities or recreational programs. (Please indicate one answer for each program activity.)**

This need is:	Fully Met; No Additional Facilities are Needed	Nearly Met	Half Met	Somewhat Met	Not Met At All	No Opinion
Adult Sports						
Birding / Wildlife Viewing						
Creative Arts & Crafts						
Equestrian and Livestock Activities						
Fitness & Wellness						
Indoor Recreation						
Movies in the Park						
Music in the Park						
Nature Education						
Outdoor Adventure Sports						
Senior Programming						
Swimming & Aquatics						
Visual & Performing Arts						
Youth Sports						
Youth Summer Camps						

**13) From the PROGRAMS & ACTIVITIES listed in Question 12, please indicate the top three that are the most important to your household? (Write in your preference below.)**

\_\_\_\_\_ 1st \_\_\_\_\_ 2nd \_\_\_\_\_ 3<sup>rd</sup>

**14) Please list any PROGRAMS/ACTIVITIES not noted in the survey that the City of Harker Heights should consider providing in the future. (List and write in any comments.)**

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**About you:**

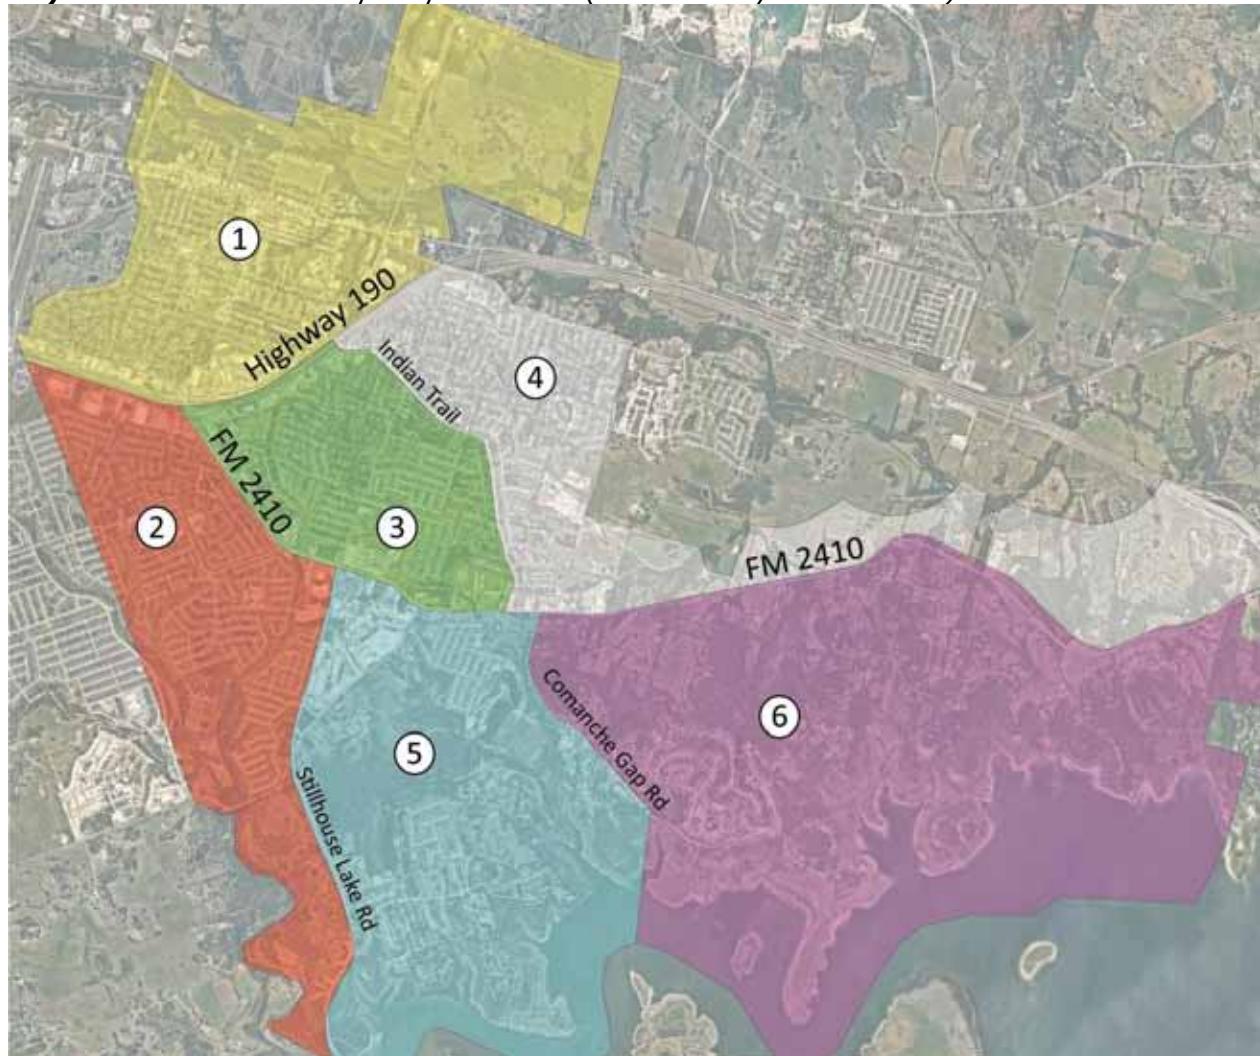

**15) I am Male / Female / Other**

**16) I Own my home / Rent my home**

**17) I have lived in Harker Heights for \_\_\_\_\_ years. (Indicate only one answer.)**

A	Less than a year	
B	1 – 5 years	
C	6-10 years	
D	11-20 years	
E	21 + years	

**18) Which area of the City do you live in? (Indicate only one answer.)**

Area 1 (North of Highway 190/Interstate 14)	
Area 2 (South of Highway 190/Interstate 14; West of FM 2410 and West of Stillhouse Lake Road)	
Area 3 (South of Highway 190/Interstate 14; East of FM 2410 and West of Indian Trail)	
Area 4 (South of Highway 190/Interstate 14; East of Indian Trail)	
Area 5 (South of FM 2410; East of Stillhouse Lake Road; West of Comanche Gap Road)	
Area 6 (South of FM 2410; East of Comanche Gap Road)	
Area 7 (Any Area Other than Areas 1, 2, 3, 4, 5 or 6)	

**19)** I am: (*Indicate only one answer.*)

A	Employed full-time	
B	Self employed	
C	Employed part-time	
D	Unemployed	
E	Homemaker	
F	Student	
G	Retired	

**20)** Including yourself, indicate the NUMBER of people in your household who are in the following age categories. (If none, write "0".)
